

EPAM BUSINESS INFORMATION SERVICES

Expertise In Digital Risk Management Solutions

With the constant change in regulations and growing number of third-party relationships that create greater risk exposure, businesses today are under increased pressure to be compliant and implement integrated and effective next-generation digital risk management (DRM) solutions. EPAM leverages its core engineering expertise to provide innovative DRM product engineering and consulting services for its global customers across a variety of industries.

FAST FACTS ABOUT EPAM'S DRM COMPETENCY

10+

years of
DRM product
engineering
expertise

10

DRM platforms
co-created with
our clients

5

Partnerships with
top DRM technology
platforms

INDUSTRIES SERVED

Financial Services | Healthcare | Energy | Oil & Gas | Manufacturing | Construction
Retail & Distribution | Business Information & Media

EPAM'S DRM CAPABILITIES

Systems Integration throughout the ERM Ecosystem

- Integrated data & systems architecture
- Functional & systems integration
- Alignment with enterprise transformation

Intelligence Automation for DRM Processes

- Process assessment
- Automated document processing for faster services processing
- Process performance management

Data Governance Management

- Policy and procedure development
- Data quality, privacy and security monitoring

Data Visualization and Consolidation

- Custom data visualization frameworks & solutions
- UX & advanced interactive interfaces
- BI/analytics reports and dashboards for visibility into risk & compliance state

Platform Solutions Implementation

- Integrated approach to managing risk & compliance to strengthen an organization's DRM framework
- Digital technology & DRM domain experience enabling businesses to identify, mitigate and report on operational, financial, compliance and IT risks

DRM Training

- Strategy and automation for new and existing training content at scale
- Design and implementation of compliance training platforms
- Learning data analytics and training optimization

END-TO-END EXPERTISE TO HELP YOU ALONG YOUR DRM JOURNEY

From consulting and advisory services to implementation and engineering a DRM platform, your business can benefit from EPAM's end-to-end expertise.
